

# Rosie Dazzlers - Image Placement Master Checklist

617 known Photo Studio placement targets. This is a master source inventory, not a live assignment report. After Build 261 is deployed, use Photo Management Studio -> Download unassigned placements CSV or Print unassigned placements for the exact current list of locations with no manual Photo Studio assignment. A location without a manual assignment may still show its authored/default or automatic fallback image.

## Addon Card (24)
